# WE MACHINE WHAT YOU NEED

INNOVATIVE, CUSTOMER SOLUTIONS FOR  
EQUIPMENT, PARTS & COMPRESSION NEEDS

## HOW YOU WANT IT, WHEN YOU NEED IT

From our professional staff to our state-of-the-art facilities and tooling, we build designs to your specifications. Our in-house drafting department, engineering and quality control systems provide innovative solutions for any equipment applications, ensuring your products are built right the first time.

DMG MORI

# KEY FEATURES

1.

Detailed 2D & 3D Auto CAD Drawings, Records of Inspection & Material Tracking

2.

Special Expertise in Parts & Repairs, Downhole Pump Parts, Compressor Valves, Valve Chairs, Valve Caps, Distance Pieces, Cylinders, Cylinder Lining, Packing Boxes, Pressure & Wiper Packing, Pistons, Piston Rods, Rings & Bands

3.

Repair/Create New Parts For Compressors, Heavy Equipment & Specialty Items With Tight Tolerances

4.

CNC & Manual Machines For Milling, Turning, O.D. & I.D. Grinding, Drilling, Shaping & Sawing. Multiple CNC Mill Turn Machines With Automated Bar Feeders

5.

Surface Grinding

6.

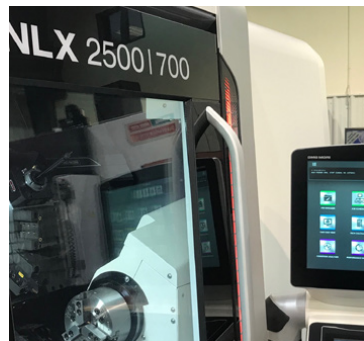

Up To 100 Ton Press Capability

7.

Quick & Reliable Turn-Around Time

8.

Master CAM Software
